equipment

RealVac

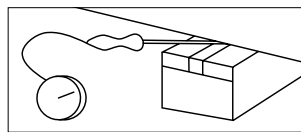

Feltest Equipment BV, professional instruments for paper machine clothing

3 good reasons to measure the real vacuum at the Uhle boxes:

1. Vacuum near the pump \neq vacuum at the Uhle boxes.
2. Detect differences between tender and drive side and see how it effects the profiles.
3. It's easy, quick and reliable!

Measure where it matters... at the Uhle boxes

The vacuum available at the Uhle box can differ tremendously from the vacuum produced by the pump. Piping, (contaminated) valves and other consumers connected to the same system will influence the vacuum at every position. Therefore, if you want to check the vacuum at the Uhle boxes there is only one place to measure...

Checking and setting the vacuum at the Uhle boxes

With the Feltest RealVac it is easy to compare the vacuum on both tender and drive side of the machine. Several factors can cause differences between the vacuum on both sides, like contamination of the slot but also piping lay-out and the location of the valve. The Feltest RealVac is also a very helpful tool to set the vacuum valve on-site when there is no manometer installed nearby.

Specifications

RealVac

Tube	Material	Stainless steel
	Size tube	270 x Ø 8 mm
	Length grip	110 mm
Manometer	Type/design	Bourdon tube pressure gauge
	Size housing	Ø 63 mm
	Materials	ABS housing with brass plug
	Scale	bar (outer scale), in Hg (inner scale)
RealVac	Total weight	0.25 kg

Quickly determine the openness of a press felt

With the Feltest AirSpeed one can quickly measure the air speed through the felt. But only when the real vacuum is measured, one will get an adequate impression of the felts openness.

Performing measurements of any kind on running paper machines is potentially dangerous and requires alertness, concentration and common sense. The products of Feltest Equipment BV are designed and constructed to be as safe as possible for their intended use. Feltest Equipment BV can not be held responsible or liable in any way for injuries or damages that occurred using Feltest Equipment BV's products.
